

# BIRTHDAY PARTY FAQ

How exciting! You have been invited or you are hosting a birthday party at Joyride 150 In-door Bike Park – the only park of its kind in all of Canada! Here are the answers to some frequently asked questions.

## Are scooters and skateboards allowed?

No, we are a bicycles only facility

## Is Joyride 150 suitable for all riders?

Yes, our park has riders from age two to seventy-two. We have balance bikes available for those not riding on two wheels yet. The park is marked like a ski resort – green circle for easy, blue square for intermediate features and black diamond and double black diamond for the more difficult areas. Upon entering, you will see our large beginner/warm-up area. So if you are new to the park, stick to the green circle areas and move to the blue square once you have mastered the basic skills. Generally, the deeper you travel into the park, the more challenging it becomes. We encourage progression.

Bike riding can be dangerous – injuries can result. Parties are unsupervised by staff, please ensure that your guests are riding within their abilities

## When can I set up the room?

You can begin setting up your room 15 minutes before your event begins.

## Are you nut-free?

No. And you can bring whatever food that you wish. Many people order from Pizzaville 905-947-9610 (free delivery) and we call you on the PA system once it arrives.

## Is my party structured?

No, you are free to structure your party however you like. Most parties have the food and cake near the end of their three hour time slot as the children are always very keen and excited to ride.

## How can I make sure that the event goes smoothly? Great question!

- Anyone entering the facility for the party must fill out a waiver form (even the parents!) Have the legal guardians of the partygoers fill out the online waiver a few days in advance. Make sure to click on the link in the confirmation email and make sure all waivers are submitted online before arriving.
- Adults may not sign for other people's children.
- Our Shift Lead is in charge of your party and is your "Go To" person if you require any assistance for the duration of the party.

## We encourage riders to follow these rules:

- ⚙️ Do not ride above your ability
- ⚙️ Pay attention to the levels of difficulty
- ⚙️ Follow directional arrows, do not go against the flow of traffic

## Helpful tips for enjoying the features at the park:

- ⚙️ Stand up on your bike
- ⚙️ Keep your pedals level when going over obstacles
- ⚙️ Hold your handlebar tightly (no spaghetti arms) and BE CONFIDENT

## My child LOVES this – what more can they do?

We offer private instruction, after school programs and summer camps. Plus we are a drop-in facility and have extended hours for lots of riding time.
